

Private House, Buckinghamshire

Client: Private

A late Arts and Crafts House which we substantially altered and enlarged, in keeping with the spirit of the original house. The work included complete renewal of services, large extensions to include new kitchen, swimming pool room, garages and bedrooms. The original house had some fine details such as several oak panelled rooms, from older houses, oak beams and leaded casements. These were carefully preserved and complemented in the insertion of a new oak staircase, panelled fireplaces, oak floors and country kitchen. The site was re-landscaped with new paths, walls, terracing, metal pergolas and front boundary wall.
